ABOUT

Aberdeen HQ

Our Aberdeen campus features 100,000 sq. ft. of workshop areas, manufacturing facilities and warehouse storage. Our location allows us to service the operational requirements of a wide range of international territories and regions

Integrated Operational Services

Our core specialisms in Lifting, Inspection and Equipment Rental and Maintenance are structured around facilitating operational harmony and service integration. Our complementary services and products allow for increased operational efficiency and significant bottom line savings

Privately Held

First Integrated is one of the largest privately held businesses in Aberdeen. This private backing allows us to exclusively focus on delivering outstanding bottom line costing and highly competitive rates

Worldwide Operations

We have significant experience in providing operational support to a wide range of international territories. We have facilities in the Caribbean, West Africa and the Middle East and are well placed to support your service requirements

WIRE ROPE SLINGS

Highly experienced manufacturer

We have 19 years of industry experience in the manufacture and supply of wire rope slings and products. We specialise in the manufacture of wire rope slings, with a wide range of terminations available. We are capable of pressing from 3mm up to 128mm diameter wire rope

Wire rope slings

We hold a large stock of variable size wire for immediate sling manufacture. Our termination range includes Talurit, Flemish, Soft Eye and Socket and our state of the art fleet of wire presses extend up to 3700 tonnes of force.

Operational support

Our logistical, supply chain and internal operations support teams have been developed from the ground up to enable a seamless and efficient operational support capability. We can accommodate same day quotation and our escalation procedures are capable of meeting the most demanding of mission critical requirements.

Quality as standard

We can manufacture wire rope slings to DNV 2.7-1 type approval and all of our manufactured products are made in accordance with exacting British and European standards. We are full and active members of LEEA, IMCA and IADC and invest heavily in our quality management systems and procedures

LIFTING PRODUCTS

Extensive product stock

First Integrated has a large back stock of common lifting products including chain blocks, beam trolleys, sheave blocks, beam clamps and wire rope pulling machines. These are available for sale or rental as required

Quality OEM solutions

We have supply and distributor agreements in place with a wide range of industry manufacturers. We are a super distributor for Crosby UK and are supplied by a number of industry leading brands including William Hackett, Gunnebo, Tiger, Talurit, Bridon and Van Beest

Rigging Lofts

We can supply a wide range of rigging lofts with custom inventories tailored specifically to suit your requirements. We can offer these on a sale or hire basis and are capable of accommodating urgent operational requirements

Air Hoists

We stock a wide range of state of the art Red Rooster Air Hoists available for immediate rental. Sizes range from 0.5 tonne up to 12.0 tonne. These machines feature robust engineering, fail-safe mechanisms and internal silencing and can be added to any rigging loft requirement

HIGH PERFORMANCE ROPES

Superior Product

First Integrated seeks to be your partner of choice for the supply of high performance ropes. These specialist products are primarily designed to be incorporated into sophisticated manual handling systems where dependable long term performance and longevity are of paramount consideration

Technical Assistance

Our in-house high performance rope specialists are able to provide technical assistance, support and guidance for your mission critical operations. In addition, we can offer advice on rope selection, installation, maintenance and use

Product Stock

We stock a wide variety of high performance specialist ropes including both fibre and steel wire. We are capable of supplying a range of sizes and our robust supply chain enables us to facilitate rapid order fulfillment

Capability

Our state of the art workshop and manufacturing facilities allow us to accurately cut high performance specialist ropes to length, and prepare them with a wide range of terminations and fittings. We can support your entire operational needs including lifting work scopes, mooring, towing and marine applications. We can also maintain and extend the life of your asset through our rigorous inspection and re-lubrication regimes

INSPECTION

Inspection services

First Integrated has fully trained, qualified and accredited engineers. We also host our own in house technical authorities and ICP's. Whether your requirement is for onsite or in house test inspection – we are capable of a wide range of testing and inspection solutions including SI2307, DROPS surveys and LOLER examinations

Load testing

Our Aberdeen campus features a 200Te test bed capable of a wide variety of proof load tasks. We also have an onsite 200Te spooling winch available at short notice and both vertical and horizontal testing rigs. In addition, our onsite 70Te crane and weld testing solutions complete the full safety critical testing capability that First Integrated can offer

Training

First Integrated is fully accredited to provide a wide range of lifting and inspection related training. We host several in house rigging seminars throughout the year and can offer courses on LOLER awareness, lift planning, COSHH and manual handling

Planning

Our extensive logistical, manufacturing and operational experience has given us the edge in advanced lift planning, installation and mobilisation of lifting equipment. We can offer a bespoke lift planning solutions tailored to your exact operational requirements

EQUIPMENT RENTAL

Plant equipment and services

First Integrated is a leading provider of high quality plant and equipment. Our products are available for immediate supply or on short or long term rental. Our fully managed equipment service allows First Integrated to provide the assurance that your assets and projects will be supplied and maintained on time and on budget

Rental equipment

We have partnered with industry leading OEMS. We can supply the complete range of Hodge Clemco portable blasting equipment, Graco portable painting equipment and SA Equipment ATEX packages. We also supply a wide range of ventilation, extraction and air distribution solutions

Maintenance and management

Our equipment rental division can offer a range of asset assurance and asset management services. In full compliance with required regulatory and legislative regimes – we can offer bespoke asset storage, monitoring, control and measurement solutions. Our planning audits and preventative maintenance programmes can help to support increased lifecycle value

HAVS Management

We are a direct supplier of the REACTEC integrated HAVS management and monitoring system. From the ATEX compliant HAVMeter to the innovative and state of the art HAVWear – we can tailor a solution for managing the harmful tool vibrations that your employees can be exposed to – protecting them from harm and your company from claims

EQUIPMENT RENTAL

Hi-Force Hydraulics

First Integrated can supply the entire range of Hi-Force Hydraulic products. From cylinders and pumps to torque wrenches, bolt tensioners and hole punchers, we can supply a hydraulic solution that suits your operational requirements

MONTI Service Centre

First Integrated is the UK's first accredited service centre for the MONTI bristle blaster system. This innovative surface preparation product allows for surface treatment and coating preparation without the need or inconvenience of blasting grit. We offer complete lifecycle support for the bristle blaster system and our in house trained service technicians will ensure your equipment is well maintained and serviced

Consumables

We hold an extensive stock of equipment, plant and tooling consumables on site and available for same day delivery. Our dedicated sales support team have extensive logistical and supply chain chain experience and will endeavour to provide a first class service

Evaluation

First Integrated can offer bespoke equipment rental and management planning. We can manage your supply chain to achieve a best in class service. Our equipment evaluation and utilisation reports allow for accurate operational planning and monitoring of ROI and stock levels

ACCREDITATION

ISO certification

First Integrated is certified by BSI to standard 9001 Quality Management, 14001 Environmental Management and OHSAS 18001 Occupational Health and Safety Management

Manufacturing

We hold DNV type approval for the manufacture of lifting slings and are full and active members of the Lifting Equipment Engineers Associated (LEEA). First Integrated is also a member of the British Safety Council and the International Association of Drilling Contractors (IADC)

Achilles FPAL

First Integrated is FPAL Advance Registered and Verify audited. We have recently improved our verify audit scoring (covering Health, Safety, Environment and Quality) from an average of 8.2 in 2013 to an average of 8.5 in 2016

Continuous improvement

First Integrated embraces a continuous improvement culture. We invest heavily in research and development and constantly look for new gains in efficiency or innovation in our product line up. We seek to be the best in the business and our compliance and accreditation processes are regularly monitored, adapted and reformed for optimal operational efficacy
