First Integrated Solutions Ltd

01224 707585

First Integrated House, Broadfold Road, Aberdeen, UK

About First Integrated Solutions

First Integrated is an international provider of state of the art lifting equipment, inspection services and equipment rental solutions, servicing clients from our UK head office in Aberdeen, our London and Dundee premises, and in Trinidad & Tobago. We also ship goods around the world.

History

The company has been in existence for 23 years and since the new shareholder invested in the business about 6 years ago the rental side of the business has grown to be a significant proportion of the business.

Services

Our integrated services are designed to improve safety, increase productivity and realise financial & operational savings for our customers. Our track record of client satisfaction is a testament to our vision and desire to become long term partners with our customers.

Why First Integrated

- **Customer Centric**
At First Integrated our customers are our number 1 priority, our goal is to cater for their every need from the initial contact to delivery and beyond
- **Privately Owned**
Our unique ownership structure gives us the capabilities to invest in the latest and most innovative products currently available
- **Largest & Most Modern Fleet**
First Integrated currently have the largest product range in Aberdeen, and as our new partnership agreements show we are dedicated to continuing our growth strategy and extending our inventory range of equipment and services
- **Forefront of Technical Innovation**
We are passionate about sourcing and supplying the most state of the art equipment possible to ensure our clients are constantly ahead of the curve
- **Short Notice Supply**
Due to the fact we hold a large supply of stock we have the ability to quickly turn around orders and get them to our clients

What Our Customers Say

- **Large Subsea Service Provider** “The engineers that were in working over the weekend at our base are a credit to your company”.
- **Tier 1 Engineering Contractor** “ We would like to thank your staff for their professional approach shown during the mobilisation of our equipment, our client was very happy”.
- **Global Rope access Contractor** “ Despite the, sometimes tight time constraints of our requests, your staff have been doing a great job of providing our orders on time, every time”.
- **Major Fabric Maintenance Contractor** “ Please pass on our thanks to your staff for the support shown to our projects with the supply of rental equipment this year, they consistently go above and beyond to meet our clients ever demanding requirements”.
- **Major E&P Operator** “feedback from our team offshore was this was the best rigging loft they had seen on their platform in 20 years both in terms of layout and quality of kit.”
- **Spirit Energy** – “the quality of the equipment, documentation and service for this order was excellent please feel free to use the quote below as you would like - *“The inspections have been done and passed with flying colours, the inspector said ‘This is the way it should be done’.”*

Our Values

- **Safety** – We put “Safety First” into everything we do
- **People** – We recognise our business is our people
- **Quality** – We always aim to exceed client expectations
- **Integrity** – We act with honesty, fairness and respect at all times
- **Accountability** – We deliver our promises and learn from our mistakes
- **Innovation** – We constantly challenge the norm, embracing change, to deliver exceptional value

Our Latest Products

First Integrated Solutions are continuously investing in the latest technological innovations to continue providing our customers with the strategic edge they require.

- **Hi-Force** – The formation of this partnership delivers First Integrated as the exclusive distributor of the UK's leading manufacturer of hydraulic lifting, torquing and tensioning tools. This gives us the capability to provide our customers with over 2000 Hi-Force products as well as having the solid technical support of Hi-Force engineering.
- **Checkmate Lifting** – Commitment to stock holding of Checkmate products makes First Integrated your partner of choice for British manufactured synthetic slings and working at height equipment
- **Modulift** – As the only authorised distributor of the Modulift range of modular spreader beams & frames in Scotland strengthens First Integrated's position as the Number 1 supplier of quality lifting equipment and services.

Innovative Products FIS have led to market

First Integrated Solutions with our large customer base have a proven track record of bringing innovative products to market.

- **HAVS** – FIS continue to promote the benefits of a cloud based system for monitoring hand and arm vibration exposure for employees. The technology is widely used in the construction market and will eventually become the go to solution in oil and gas.
- **Cleanspace** - Respiratory disease affects 1 in 5 people and is the third biggest cause of death in the UK. The addition of the CleanSpace Breathing Air equipment allows First Integrated to offer the most technologically advanced powered air- purifying respirators on the market today.
- **Flapres** – ATEX pneumatic pressure washers that are lighter compact units with comparable pressures ranges to the industry standard units already in service, this coupled with minimum maintenance required makes these units a more cost effective alternate for FIS customers.
